

Updating Security Certificate for USFWireless-Auth

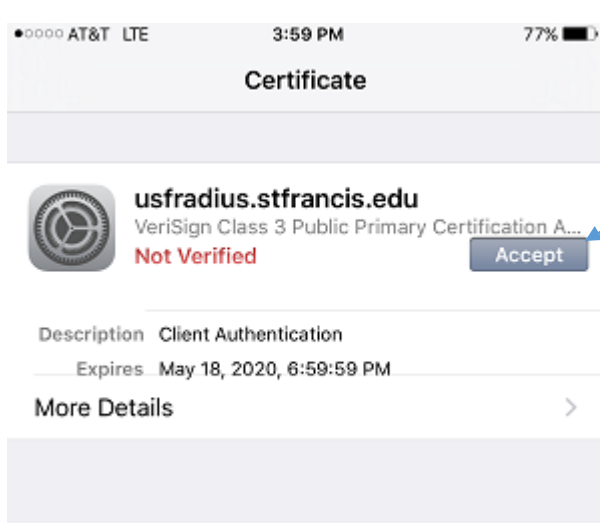

You will notice that your iOS device will not auto connect to USFWireless-Auth as it did previously.

Please follow the instructions below to update your connection.

From the main screen on your iOS device, select settings and then WiFi. From the WiFi window, select USFWireless-Auth.

After selecting USFWireless-Auth, you should receive a certificate warning. Select Accept.

After selecting accept, your device should now be connected.

If you are still experiencing problems, please contact the Technology Support Center at 815-768-8324 or visit the office in Marian Hall.
